For most recent pricing information, contact us via phone at: **352-207-5716**

Repair Type Classifications

Category 1 repair

- Issue known or identified beforehand; specific component replacement requested.

Example: "Broken throttle lever on the die grinder."

*ATR assumes the requested quote and repair are for the specified issue only. No further tear down of the grinder would be performed. If any other abnormalities during the quote or repair process are identified, ATR would notify the customer for decisions going forward.

Category 2 repair

- Issue is unknown, requires analysis or troubleshooting.

Example: "The grinder has no torque, bogs down, makes loud noises etc."

*These types of issues would require a full disassembly of the tool, and an inspection to look for damaged or worn parts. The repair would then be quoted based on the findings.

Denial of quoted repairs, tools will be returned unassembled due to Safety and Liability of worn or damaged parts or (ATR) will dispose of at customers discretion.

Labor Rate

Labor rate will be charged as 1/2-hour increments. i.e., "screw missing, bad collet on grinder etc."

ATR tries its best to offer competitive rates for the area, please inquire for current rates.

Invoicing

Payments are due in full to (ATR Air Tool Repair LLC) upon delivery of repaired tools. Payment methods include check, major credit cards, debit cards and cash.

Checks returned for insufficient funds: Customers will be charged a **\$40.00 fee** to cover bank penalties.
